About

Aspiring to leverage my expertise as a Java Backend Developer with a focus on backend development to contribute to innovative, scalable solutions in a dynamic and fast-paced environment. With a solid foundation in Java, JSP, Servlet and experience in ASP.NET, I am eager to apply my knowledge to solve complex challenges while continuously expanding my technical skills.

Skills

- Java | Spring Boot | C | MySQL | Oracle | HTML | CSS | JavaScript | React | Git | .NET
- OOP | DBMS
- Frontend | Backend | Full-Stack | Communication | Problem Solver | Quick learner | Creative thinking
